# SAKE

## SAKE

Sake presents unique characteristics at different temperatures. Each sake has its own optimum temperature, and this will vary, with the quality of the sake, the season, as well as the consumer's personal preference.

Chilling sake which is refreshing and aromatic will maintain its delicate flavours and aromas.

Warming a robust and rich sake will increase the softness and umami fragrance.

## FEATURE BREWERY: AKASHI TAI

Hyogo Prefecture: Akashi Tai Brewery maintains a traditional handcrafted approach to creating the finest Japanese sake. Brewing superior sake by hand requires all five senses to perfect the natural processes of fermentation and flavour development. Even the hushed sounds of natural fermentation at work can be heard in the cool, quiet rooms of the brewery.

## FEATURE BREWERY: KEIGETSU

Kochi prefecture: For 138 years since our founding in 1877 we have manufactured high quality sake, provided with abundant water and clean air from mountains in northern Kochi-prefecture (called "Tosa-Reihoku region"). Tosa-cho, where our brewery exists is surrounded with a serene natural environment near the Sameura Lake which is called a water source in Shikoku. From this lake Yoshino river flows through Shikoku to the east. We handmake a small amount of sake which consumers will be satisfied with, using high-quality soft water in this region.

# DUCK & DOM PÉRIGNON

## PEKING DUCK

Succulent, rich and full of flavour. Many wines and Sake combine well here. What is important is to choose a wine with mild acidity and a hint of sweetness to accompany the plum sauce.

Made only from the best grapes, Dom Pérignon is a vintage champagne only. Each vintage is a true act of creation, singular and unique, that expresses both the character of the year, and the character of Dom Pérignon.
